

COP26

It is vitally important that action is taken at every level to address the climate crisis – individually, locally, regionally, nationally and internationally. With the international Climate Change Conference (COP26) happening soon in Glasgow, it is a good time to reflect on what we as a town council have been doing.

Declared a climate emergency

Set up a dedicated Environment committee

Energy efficiency measures

Meat-free catering for DTC events

Adopted an ambitious environment policy

Hybrid car for official DTC use

Treeconomics survey

Switched to renewable energy supply

Sustainable planting

Plastic Free Deal

Town Hall's Carbon Footprint analysed

Clean Air campaign

No Idling schools competition

Net Zero training for staff and councillors

Air pollution monitoring

Cycle Friendly Deal

Committed to net zero by 2025

E-bike hire scheme

There is much more that we can do as a council and as individuals – everyone must play a part.
